

Pre-Travel Checklist

- Review your online trip itinerary** provided by your **Caribbean Journey advisor**.
- Print a PDF copy** of your online trip itinerary from the bright blue PDF button in the upper right corner.
- Download the airline's app** and sync your flight. Once you do this, check the app every few days to ensure you remain logged in and that notifications are turned on.
- Review your travel insurance** policy for any cancellation deadlines and timeframes. Some require cancellation 24 hours before departure; some require a shorter number of hours before departure.
- Make sure you have your passport** + vaccination card in a place where you won't forget them on departure day. Take photos of both items and save them to an easy-to-access album on your phone.
- Withdraw some cash**; remember, small bills come in handy for tipping.
- Turn on travel notices** with your credit card(s), so they won't flag foreign charges as fraud.
- Schedule your car service**/ride to the airport for departure day. Remember you must be at the airport 3 hours before departure for international travel at all US airports.
- Charge electronics** and organize all your travel chargers.
- Refill any prescriptions**, so you don't have to worry about running out on vacation.
- Renting a car?** Check with your US car insurance, travel insurance, and credit card to review your overseas coverage.
- Take a photo of your packed luggage**; it will come in handy should you need to list the contents on a lost luggage claim form.
- Buy [Apple AirTags](#)** and program them for each piece of luggage.
- Check the baggage limitations** for your airline. Some of the smaller airlines in the Caribbean don't allow the same sized luggage as larger carriers.
- New dietary restrictions?** Let your travel advisor know of any food allergies or changes in your diet.
- Finish packing!**
